## Christian Related Vocation & Hester Scholar

The **Christian Related Vocations** (CRV) program is a pre-professional program designed especially for the preparation of future ministers, vocational or otherwise, and involves the supervised practical application of learned ministry skills and theory. Students participating in the CRV program are expected to be active participants in ministry while on campus and through the local church. The CRV program includes an annual scholarship grant. It is important that students receiving this grant be commended to us as persons called and committed to a Christian related vocation. Students may be asked to meet with the Dean of the Chapel prior to acceptance in the CRV program.\*\*
