

The William Jewell College Cross Teams ran at the Emporia State D-II Jock Nitch Invitational on Friday September 28, 2007. The conditions were very difficult for running with 85 deg heat and very windy. The Women's team ran a smaller number of people because of injuries and a Grad School test, but many runners had better times than last year for this race. The Men's team had some runners improve on season times and continue to add more depth. The teams are off this week and are training hard for the NAIA Mid-State Championships at Winfield ,KS. hosted by SouthWestern College on Oct 13, 2007.
