July 20, 2016

Faculty/Student Achievements

• Dr. Kelli Schutte, professor of business and chair, and Chris McCullick, assistant professor of business co-authored an article with Dr. David Denali of ATSU on Program Mapping and Assessment. The article was accepted for publication in The Department Chair fall 2016 issue, published by Jossey-Bass.

• Dr. Anthony Maglione, associate professor of music and director of choral studies, has been invited to perform and record with the new professional choir “The Same Stream.” Conducted by world-renowned conductor and pedagogue Dr. James Jordan of Westminster Choir College, the ensemble will perform and record their first full-length recording in early August in Philadelphia. The album, entitled “Abide,” will feature works by living composers such as Paul Mealor, Thomas LaVoy and Dan Forrest. The ensemble released a short recording last year which can be heard here: https://itunes.apple.com/us/album/same-stream-inaugural-recordings/id1067508472

Wellness Corner – Do you know this about heat and your health?
When your body is unable to cool itself properly, you are at risk for heat-related illness or death. The body cools itself by sweating. Sometimes sweating is not enough. Your body temperature can rise rapidly and very high body temperatures may damage the brain and/or vital organs.

• Drink MORE fluids regardless of your activity level. Don’t wait until you’re thirsty to drink. Do not drink sugary drinks or drinks containing alcohol, as these types of fluids will cause you to lose more body fluid.
• Do not drink very cold drinks – they can cause stomach cramps.
• Move your exercising indoors. If you must be outside, drink two to four glasses of cool water fluids per hour. Sports drinks can replace salt and minerals lost caused by sweating.

As with any health tips, check with your doctor to make sure these suggestions are right for you.
