

Although many participants assume there are no costs or fees associated with your plan, there are in fact costs associated with your participation in the plan. This document will outline those costs.

Participants pay for the cost of the plan's administration. There are also other costs that Plan participants pay. Those expenses have an impact on the size of your account balance at retirement.

The information that follows is intended to provide you with a better understanding of expenses associated with your participation in the Plan. You'll learn:

- How administration expenses are handled.
- What costs are associated with elective Plan features (e.g., taking out a loan).
- What fees are associated with our Plan's investment options.

In addition, you'll learn about rights you may have with respect to the Plan's operation, how the Plan's investments' performance compares to broad-based benchmarks, and where to go for additional information concerning the Plan's investments.

The fees and expenses associated with our plan are not unusual. Almost all 403(b) plans have such costs. And the fees and expenses associated with our plan are reviewed regularly to make sure that they are competitive and reasonable. The objective of this communication is simply to provide you with more and better information for making investment and other plan-related decisions.

Remember, too, that investment-related fees should be placed in context. A somewhat higher fee may be perfectly appropriate if an investment better suits your needs and goals.

If you have any questions concerning the information that follows, contact Julie Dubinsky, Plan Administrator, at 816-415-5085.

## **William Jewell College 403(b) Plan**

This document contains important information concerning our retirement Plan. The first section provides you with information about the Plan in general, including any expenses you might incur through participation in the Plan or through taking advantage of different Plan features. The second section provides information about the Plan's investment alternatives, including any fees or expenses associated with those investments.

If you have questions concerning any of this information, contact Julie Dubinsky, Plan Administrator, at 816-415-5085.

### **Plan Information**

The Plan is intended to be an ERISA Section 404(c) plan. This simply means that you "exercise control" over some or all of the investments in your Plan account. The fiduciaries of the Plan may be relieved of liability, or responsibility, for any losses that you may experience as a direct result of your investment decisions.

As a Plan participant, you may request certain information from Julie Dubinsky, Plan Administrator, 500 College Hill, Liberty, MO 64068, Phone: 816-415-5085. This information includes: annual operating expenses of the Plan investments; copies of prospectuses, financial statements, reports, or other materials relating to Plan investments provided to the Plan; a list of assets contained in each Plan investment portfolio; the value of those assets and fund units or shares; and the past and current performance of each Plan investment.

You give investment directions for your Plan account, selecting from investment choices provided under the Plan, as determined by William Jewell College.

You may change your investment choices anytime.

### **Other Plan Information**

Voting rights may be exercised by the participant.

### **Other Plan-Related Expenses**

Retirement plans have different types of expenses.

**Administration expenses** – These are charges for services such as legal, accounting and recordkeeping expenses.

In our Plan, these expenses are allocated to Plan participants.

## Investment Options - 12/31/2020

## Document Summary

## Part I. Performance Information

Each investment in the table also has a "benchmark". The benchmark allows you to compare an investment's performance to the performance of a widely used collection of investments. While you cannot invest in a benchmark, the performance of the benchmark will give you an idea of how well the investment did in the same time period.

## Part II. Fee and Expense Information

**Table 2** shows fee and expense information for the investment options listed in Table 1. Table 2 shows the Total Annual Operating Expenses of the options in Table 1. Total Annual Operating Expenses are expenses that reduce the rate of return of the investment option. Table 2 may also show Shareholder-type Fees. These fees are in addition to Total Annual Operating Expenses.

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Department of Labor's Web site for an example showing the long-term effect of fees and expenses at

Fees and expenses are only one of many factors to consider when you decide to invest in an option. You may also want to think about whether an investment in a particular option, along with your other investments, will help you achieve your financial goals.
